Eaton® Fuller® Heavy-Duty Clutches

One Great Drivetrain from Two Great Companies

**Less Time on Maintenance. More Time in Use.  
More Time on the Road.**

*The clutch that thinks it's a mechanic. It is a cost savings combination that has never been available before.*

*Solo® Adjustment-Free  
Heavy-Duty Clutch*

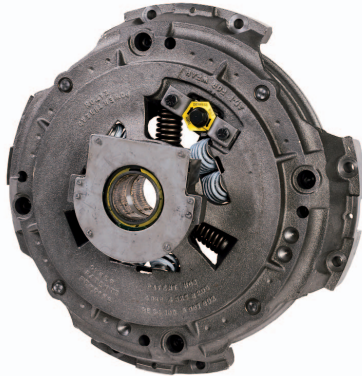

- As a fully adjustment-free clutch, Eaton® Fuller® Solo® not only stays in constant adjustment giving it extremely long life, but adjusts without the need to incur additional labor costs.
- Eaton Fuller Solo Adjustment-Free Heavy-Duty Clutches are designed for rugged use in class 8 Off- and On-Highway applications.
- Constant adjustment and advanced, new materials allows for longer clutch life.
- A wear indicator constantly monitors the amount of clutch wear.
- All these benefits coupled together explain why Eaton Fuller Solo is truly in a class by itself!

Abbreviation	Description
1402	14" 2 Driven Discs
1552	15.5" 2 Driven Discs
AS	Angle Spring
CO	Coaxial
DCF	Dampened Ceramic Facing
EP	Easy Pedal
FT	Free Travel
M	Manual Adjustment
G	Greaseable Bearing
SD	Severe Duty
VCT	Vibrational Control Damper

Note: All spline sizes are 2.00"-10.

Easy-Pedal™ 2000 Clutch

- Eaton® Fuller® Easy-Pedal™ 2000 Clutches feature the reliability and durability you need while ensuring driver comfort, vehicle performance and cost effective operations.
- Easy-Pedal 2000 15.5" Clutches feature proven Powerthread technology to enhance clutch adjustment.
- Easy-Pedal 2000 15.5" Clutches possess a Strap Driven Pressure Plate which eliminates lug driven pressure plate noise and reduces vibration improving clutch assembly balance.
- Patented Kwik-Adjust® allows for easy access, easy adjustments and no special tools.
- Easy-Pedal 2000 15.5" Clutches are completely interchangeable with all current cast twin plate models.

Eaton engineers technology and quality into every clutch. Designed to be Easy on the Driver. And on the Drivetrain.
